Subject: Incomplete Notice of Intention, Small Mining Operations, Loy Crapo,
Drum Slate #1 Mine, S/023/072, Juab County, Utah

Dear Mr. Crapo:

Your amended Notice of Intention to Commence Small Mining Operations was received by the Division on December 20, 2005. The application for the amended location on your Mine, originally located in SW $\frac{1}{4}$, Section 27, T14S, R10W, SLBM and now moved to SE $\frac{1}{4}$, Sec 28, T.14W., R10 W., is determined to be incomplete. It has been determined that you do not have the rights (claims or mineral lease) to mine at this location. You may not commence with your amended plan as outlined, as you do not have the permission of the BLM as the land managing agency to mine at this location.

Since you have mined outside the original area permitted in your Small Mine Notice received 5/7/2001, without getting prior approval, the Division must issue the attached cessation order. The abatement requirements attached to this cessation order require that you get permission from the BLM to continue further mining at this site. If this can not occur, then reclamation of the existing disturbance is required.

Sincerely,

Daron R. Haddock
Permit Supervisor
